

**2012 REPUBLICAN PRIMARY FAMILIES FIRST VOTER GUIDE**

**About This Voter Guide**

Cornerstone’s 2012 Families First Voter Guide presents information that should help you choose the best conservative candidates in your district(s). The Guide compiles scores from the [2011-12 Cornerstone Scorecard](#) (for incumbents only) and makes note of whether each candidate has signed and returned Cornerstone’s [Families First Pledge](#), a sample of which is included on the last page of this guide.

Each candidate running for legislative or executive offices, whether running for the first time or running for reelection, was given the opportunity to sign the Families First Pledge.

**How to Use This Voter Guide**

1. Using the “Find Your House District” and “Find Your Senate District” pages, look up your town and find your House and Senate districts. (Note: Some communities will have more than one House district. To learn why that is, consult the “About New Hampshire House Districts” section to the right.)
2. Once you have found your districts, turn to the House Voter Guide and the Senate Voter Guide and look up the candidates running in your district(s).
3. The House Voter Guide makes note of the number of seats in each district. If a district is not listed, there are no Republican candidates running in that district. If there are more candidates than seats, there is a primary challenge and an opportunity for you to play a role in nominating the most conservative candidates.

***About New Hampshire House Districts***

You will notice that some communities or city wards have multiple House districts associated with them. This is not a mistake. Because of redistricting and the Legislature’s effort to balance the requirements of the state and federal constitutions, some communities will have representatives devoted completely to their community. Other communities will have representatives devoted solely to their community as well as representatives for their community and neighboring communities (these are called “floatorial” districts). Those communities that didn’t qualify for their own district will only have representatives that they share with neighboring communities.
