## The 3322 Project Final Study Guide

---

### Questions:

*These questions are intended to sum up what you have learned over the past seven lectures.*

1. How does the establishment of America fulfill the requirements discussed by Zane throughout these lectures. In other words, how does our founding serve as an example of a Godly government, established on biblical principles? Use the supplemental readings if you need more material.
2. Is there a connection between the idea of a right, properly understood, and the idea of a covenant? Discuss.
3. In lecture 2 Zane asks the question, “What is the proper context of the civil government?” Using what you have learned in these lectures, answer the question.
