

2011-2012 LEGISLATIVE SCORECARD

About the 2011-2012 Cornerstone Scorecard

Cornerstone Action selected 39 roll call votes in the House and 20 roll call votes in the Senate from the 2011-2012 session of the Legislature. Each vote is weighted equally, and provides a score adjusted for attendance (“Overall”) and one that is not adjusted for attendance (“Raw”). Thus, a legislator’s score will reflect the actual percentage of his or her votes that were aligned with Cornerstone’s agenda and also reflect his or her attendance record.

To help supporters judge candidates based on the issues that matter to them most, Cornerstone’s scorecard also arranges each of the 59 votes selected into one of four categories, and provides a category grade for each incumbent.

We hope voters will not just look at a legislator’s score and assume that an 85 percent or even a 90 percent score is adequate. We hope voters will look through our scorecard and identify where each lawmaker fell short, and perhaps even reach out to these legislators to ask them about their record. Then, based on that information, we hope voters will make informed decisions about whether their incumbent candidates are worth supporting again.

—SHANNON MCGINLEY,
ACTING EXECUTIVE DIRECTOR
