

On the Go—In the Know!
Sept-Oct 2019

It's back-to-school time in an odd-numbered year, which is a budget year, as opposed to an even-numbered election year, in NH. Although the legislative session does not resume until January, important legislative committee work is resuming now—work that you can speak into!

Abortion/Affirmation of Life

- **What's Up:** For the first time in NH history, direct funding for abortion may be included in the state's budget. The House will reconvene Sep. 18-19 to vote on the budget—unfinished business from last spring. Gov. Sununu is prepared to veto the budget for many reasons, but direct funding of abortion is *not* one of them he has yet mentioned.
- **More Info:**
 - **Blog:** <https://www.nhcornerstone.org/legislative-update/abortion-providers-nh-state-budget-what-you-need-to-know/>
 - **Video:** view *Dena's Story*, a story of redemption: https://www.youtube.com/watch?v=h-svTqG_27M
- **Take 2 Minutes Now:** Call the Governor's office, **603.271.2121**, and let the staffer know that you do not want your taxpayer money to pay for either direct or indirect funding of abortion.

Gender Identity & School Bathroom Policy

- **What's Up:** Since the passage of SB 263 last spring, which adds “gender identity” as a protected class to the state's anti-discrimination statutes relative to education, public schools will be articulating related policy with regards to athletics, bathrooms, locker rooms, etc. In an effort not to discriminate against transgender students, your public school may create policy that allows students access to facilities not corresponding to their biological gender.

- **Take 2 Minutes Now:** Find out what your school's transgender policy is; clearly but respectfully let your local school committee know your thoughts on that policy; contact Cornerstone with concerns/questions.

Legalization/Commercialization of Recreational Marijuana

- **What's Up:** Medical marijuana is already legal, and the possession of ¾ oz. or less has been decriminalized in NH. After much pushback last session, HB 481—which would create a “Cannabis Control Commission” and would force towns to accept pot-growing and pot-selling establishments that get a license from the CCC—was tabled until this coming January. The U.S. Surgeon General just came out with a report citing the dangers of pot smoking.
- **More Info:**
 - **Blog:** <https://www.nhcornerstone.org/latest-news/surgeon-general-alerts-public-to-damaging-effects-of-marijuana/> AND <https://www.nhcornerstone.org/latest-news/good-news-for-nh-on-recreational-pot/>
 - **Video:** view *HB 481 Info Vid*:
<https://vimeo.com/319232985>
- **Take 2 Minutes Now:** Contact your NH Senator—go to <http://gencourt.state.nh.us/house/members/default.aspx>, select your town from the dropdown menu, and contact your senator by email or phone. State your name and hometown—emphasize that you are a constituent—and indicate that you oppose HB 481 and the commercialization/legalization of recreation marijuana.

CONTACT your elected officials in light of building a long-term RELATIONSHIP with them: always employ *brevity, clarity, and charity* when speaking to your elected officials—be *brief, clear, and Christ-like!* In other words, use the golden rule: *how would you like to be communicated with?*
